MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : Acting Director, National Foreign Assessment Center

SUBJECT : Publication of NFAC Telephone/Address Locator

83-0425

1. Pursuant to [Redacted] I request authorization to publish and regularly update three classified NFAC telephone/address locators.

25X1

2. The reorganization of NFAC resulted in changes of physical location for the majority of NFAC personnel, as well as in new telephone listings and new organizational affiliations. Our counterparts throughout the Agency, the intelligence community, and key parts of the policy community need to know about our new organizational structure and the way to reach us. The directory samples at tab will solve this problem.

- A. TAB A would be for distribution within NFAC. It contains organizational designations and an alphabetical list of all employees. We would give the DDO a limited number of copies for their reference.
- B. TAB B would be for more general Agency distribution, and for members of the intelligence and policy communities. Part I would be for external distribution; Parts I and II for internal distribution. This TAB provides gross organizational data and limited telephone members, but no names of personnel.

SECRET

3. We have all the data available on a computer program, and we update it as often as people change location or affiliation. We would reissue dated revisions periodically. I anticipate that the need for such directory listings will continue for a year or more.
